Live Music
Hiking, Outdoors
Pottery

Other

Massey High Achiever Scholarship
Arts, and Academic categories 2013

Proxime Accessit
Marlborough Boys' College 2012

About Me

I am a fullstack software developer who brings a background in heritage to my practice. I am particularly interested in human-centered design principles including accessibility, and have a desire to create tools that contribute meaningfully to the lives of others.

As a team member, I value inclusiveness and a supportive culture. I am seeking a career fit where I can build useful software in a technical role.

Experience

Dev Academy Aotearoa - 2023

Completed a 15-week web development programme, working independently and in teams to create fullstack web applications.

Human Skills curriculum covered feedback, courageous conversations, active listening, bias and diversity.

Presented work to a non-technical audience.

National Library of New Zealand - 2022-23

Audio-Visual Quality Control Technician

Developed and carried-out the quality control workflow for digitised media, as part of a digital preservation pipeline.

Technical metadata analysis.

Archives New Zealand - 2021-23

Preservation Technician (Project)

Designed and built a digital tracking system, to manage the handling and processing of archives.

Agile team environment.

Digitisation Assistant

Introduced a new system to streamline the handling of large volumes of physical files through the digitisation process.

Collaborated on workflow re-design.

Duty Calls Nursing - from 2017

Healthcare Assistant (Casual)

Assisting in the rehabilitation of a man with physical disabilities. Ensuring physical safety, aiding mobility and communication.
